UNCLE FRED

Uncle Fred has quit. Fred Morris drove a school es on Salt Spring Island for 17 years. He knew and transported hundreds of children during those years. And he listened to the children in their moments of joy and in their extremes of sadness. They called him Uncle Fred because he was never too busy or too tired and too pressed to list -en. For 17 years Uncle Fred had a word of advise to the little boy who was puzzled and a gesture of sympathy for the grieving or a cheery laugh for the joyful

On Wednesday evening last week he marked his 17 years when the board of trustees invited him to the monthly board meeting and made a presentation. The ceremony, explained Chairman George Heinekey, was on behalf of the board and the children.

"I've loved all the children and I have enjoyed working with the board," replied Uncle Fred. "They still ask me, "When are you going to drive the bus again?"

He lost his A license to a coronary, explained the former dri-

The only place a Canadian can get NHA assistance to build a house, even if he can qualify by earning more than \$8,300 a year, is in the city, stated the speaker at a Social Credit meeting in support of Lorne Lee.

The government regulations are now forcing people into com-munal centres, he explained.

"There are three people per square mile in B.C.," said Mr. Bruch, "Yet the federal government is forcing them into communal living.

Communal living, or the coming together of the populace in large centres, destroys society,

warned the speaker.

There is no NHA in Britain, but Mr. Bruch cited the British plight as an example of where

neglect of homes can lead. Last year 7,000 British children were taken away from their parents, he stated. Not because the parents were unsatisfactory or criminal, but simply because

there was no room for them. The 7,000 children were taken from parents who have nowhere to live and nowhere to go.

FUNNY

Social Credit monetary theory has been vindicated, according

to a speaker at Ganges last week.
Esquimalt MLA, Herbert Bruch
told a Ganges Social Credit meet
ing that the party's monetary theory sees three essential factors in development.

Needed to forge ahead as the labour, the skill and the materials. If all three are available, contend Social Crediters, then financing should not be a barrier to progress.

It has long been described as monetizing the faith and credit of a nation, he observed.

Today the world has accepted "paper gold", he continued. This paper gold is the international example of the "funny money" proposed decades ago by the party, averred Mr. Bruch.

COMPLAINTS AS HAIR CUTS ARE ENFORCED

Number of cases of alleged assault have been reported in the Salt Spring Island area during the week end.

investigating.

In all cases the complainants are youths who have been forcibly shorn of their long hair.

Police are investigating the complaints.

GRADUATE

Mrs. Winifred Margaret Miller nee Calthrop, of 2576 Edgemont Boulevard, North Vancouver, wins the Helen L. Balfour prize of \$250 for being top of her graduation class.

She received her Bachelor of Science in Nursing degree at the University of British Columbia, graduation ceremonies on Friday, May 31.

Mrs. Miller was born and educated on Salt Spring Island and is a graduate of the Vancouver General Hospital, where she will begin work in the Psychiatry Department, in July.

ONE - MAN SHOW

One-man show will be staged at Mahon Hall on Saturday, June 22, when Ted Lindbergh will come out from Victoria to exhibit his work in water colors, oils, prints and other media.

The exhibition will be open from 2 pm to 10 pm. and there will be no charge for admission. Showing will be brought here by the Community Arts Council.

The council is also sponsoring

a drama workshop on Salt Spring Island in July and August. Last act of the workshop will be the presentation of a one-act play to prove the value of the course.

EDUCATION

WHERE IS BARRIER

Where is the learning barrier which lies between the outer islands and Salt Spring Island?

This was the question posed to trustees of the Gulf Islands School District on Wednesday evening last week by an outer islander.

Mr. and Mrs. A.M. Davidson of Saturna Island, attended the meeting of the school district to express their concern over the failure of many island children to graduate.

A child attends school on the islands and proves receptive to learing and able to cope with the courses. When he graduates and enters Grade Nine at Ganges he loses interest and ability and

The problem was raised by a meeting of parents on Saturna Island recently and Mrs. Davidson reported their concern to the school district.

The question is one of individuals and not of schools, it was reed. Standards at Gulf Islands secondary School at Ganges are as high as at any contemporary school, it was felt. "We have a problem." agreed Chairman George Heinekey.

Several avenues were explored and several reasons were considered.

The failure of students to cope with high school was attributed in part to the vast change facing an outer islands school in

the transition to Ganges. At the outer islands he has attended a small school in a small community all his remembered life. He then moves from home to a dormitory, where he is surrounded by his fellows and to a larger school where the population is far greater than any he has been accustomed to.

The board considered various answers I.

It was suggested that a centralized school system could be established on one of the outer islands to cater to all of the outer islands. By this means the 96 students at present enrolled in the various islands schools would be transported to one community and there attend a daily school

together. This would require the con-struction of a larger consolidated school on one selected island; the negotiation with the ferry authority for a revised ferry

ELECTION CAMPAIGN

Federal election lies three weeks away. On June 25 the electors of Canada will go to the polls to cast a ballot in the greatest legalized gamble in Canadian society.

To this date the candidates have been vigorously campaigning in the wake of their respective leaders. The hustings are splashed with a little mud, vitriol, vague promises and spit.

What of the voters?

So far the enumeration of electors has been undertaken. Majority of voters are aware of this. The voters' lists have been placed in various public places. Few voters are aware of this. If a voter is missing from the list he may take action to ensure that he will be entitled to vote. Probably no voter is aware of this.

The preparation for the election by the candidates has been accompanied by loud noises and circumstance. Preparation for voting has been accompanied by cautious whispers.

The truth of the matter is that very few of us know where the information is to be found or what we may do, should do or must do.

It is incumbent upon the individual to inform himself in all matters of law. Voting is a tough subject to learn.

Ottawa is a gigantic vacuum cleaner sucking everything out the province and putting nothing back, suggested Tom Harcus at a recent political meeting in Ganges last week.

Two men looked down at the water of the slough last week nighways department crews were working on the culvert under the Ganges main thoroughfare, "I wouldn't wash my hands in that water," observed the first. "You would if you had what I had on them, retorted the other, wiping his hands.

When a young American student accepted a ride over the Malahat the other day, he explained to the driver that he was a graduate in forestry from the United States. He had been travelling in British Columbia, but he was only partially impressed. The scenic beauty of the coast left him breathless. The indifference of British Columbians to their heritage left him speechless. Vast tracts of forest have

been ravished up the coast and nothing is left of the original trees, he explained. "Don't you practice forest conservation in British Columbia?" he asked incredulously, "Can't you people here learn by the mistakes made in the United States?

INTOLERANCE Editor, Driftwood.

We see about us today, the world over, a drastic change in mankinds approach to social environment. It is for the best, although many fear and shun the effort required to adapt to change and to open their minds. They also fear the irresistible crumbling toilers, and by tradition lowest of their protective walls of intolerance.

For too long the parasitic ego of older generations has fed on the plasticity of youth. The young are now resisting the cannibalistic demands of their elders' prejudice. In retrospect they are just- minds of men but in truth he ified. Their steps to this new goal, they have set for themselves are at times erratic, sometimes immature and sometimes, and very frequently, showing a wisdom that their elders fear as they cannot or will not understand.

Why the woodsmen? He is the low man on the forest financial totem pole. Like the farmers they are the harvesters and like the farmers the first hands to touch the crop are the paid but hardest working. Unlike the farmer, the logger does not have the satisfaction and security of owning the land on which he pours his life's energy. The myth of the lusty, impro-vident logger lingers in the has all but vanished like the Klondike miner. We wives of woodsmen have sober, dependable, decent, hardworking husbands. A woodsman must be wise and economize, giving up vacations, household furniture and appliances, dental work, extra lessons for the children in order to have enough money in his savings account to supplement unemployment insurance during fire season and winter shut-down.

Most loggers must live away from home as the harvestable timber retreats further from the small towns and communities. This not only creates an unusual family life but also cuts into the pay cheque for board. A pair of caulk boots costs over lifty dollars. LAST INSPECTION FOR COMMANDING OFFICER

Salt Spring Island was well represented on Sunday when 676 represented on Sunday when 676
Air Cadet Squadron at Sidney
was formally inspected and assessed by a Sidney officer station
ed at Comox.

The parade was significant
for island cadets because it was

the first annual inspection in which the island contingent had taken part. It was significant for the squadron because the parade marked the 10th anniversary of the unit.

SPRINGTIME

BY CELIA V. REYNOLDS
The Springtime world was happy With gown of gayest green. The apple trees in blossom A picture to be seen.

The oak tree on the rocky ledge With moss on craggy bark, Was lifting up its gnarled old arms to see the swallows lark!

The barn yard cat sat on the fence To watch the springtime splendour-Too content to be intent
On robins young and tender:

And as I watched this pleasant

I thought of other seasons--Summer, autumn, winter time, I love, for many diverse reasons.

It costs us nothing, year by year To see the season fall, And this, to me, has always seemed. God's happiest gift of all!

It costs over 30 million dollars annually to maintain Canada's forest fire fighting forces.

(From Page One) schedule to allow transportation between the islands for students and the approval by ratepayers of the construction of a new consolidated school building.

Trustees were sceptical of gaining the ratepayers' approval.
If the situation affected only

one child or one family the question would be less problematic, it was suggested, but this is a situation which affects many

There is a danger in the use of a dormitory for children too young, it was also noted. G.S. Humphreys observed

that the ratepayers of the district had rejected the original plans of the trustees to build a modern dormitory on Salt Spring Island. Instead, they had supported the bid to acquire an old building and to use it for the purpose. Facilities offering segregation of age groups or more ambitious service to the students could not be accomplished, he warned.

The Gulf Islands secondary school is good but not equal to the Kitsilano school to which he once went, observed Mr. Fratt-

On the contrary, replied J.M Campbell, it is of a far higher acedemic standard than was Kitsilano when he attended.

At the present time students on the islands take grade eight on the islands late grade eight on the islands. If they were to take grade eight at Ganges, it would necessitate a lower age group in the dormtory and it would also reduce the number of students on the outer islands, reducing class sizes and numbers of teachers.

Mr. Humphreys recalled that the school population of the islands has risen from 186 to more than 600 during the past 14 years

There is a lack of incentive offered the students from the outer islands, suggested Principa. Donald Hartwig. The change from the smaller school necessitates a sharp switch to greater personal effort than is needed in the small, intimate atmosphere of the island school, he suggest-

A good criterion is the library, added the principal. It is open until 5 p.m. each day. There is normally only one island student who takes advantage of the hours each day and that student is among the top in the school.

Discussion closed without revealing any positive reason for the problem.

IT WAS A BILL OF WRONGS WE NEEDED!

John Diefenbaker missed the boat, when he pressed for a Bill of Rights. We no longer need a Bill of Rights, we need a Bill of Wrongs. We could compile the list

with great care and present a copy to each representative of people of Canada. It would be a guide to the elected and to the aspirant for

To help the representative who has difficulty reading it would be in alphabetical

For example, and there is not sufficient room here to compile the whole bill, we

could start with the "A's".

For example, Arrogance. A is for Arrogance and Anger...and How! For without it a minister might have been

with us now.
The Bill of Wrongs could not be in rhyme for fear of being termed flippant.

So we would introduce an explanatory clause after each

low. The arrogant man forgets that no elected representative can ever be more important than the people who elected him.

Which is all prose and therefore hollow! On with the A's! A is for Aircraft and Flying

Let's get aboard, it's not for just one!

Aircraft represent a major hazard for the wrong-seeker A crusading aspirant for high office may jeopardize his whole future by taking the wrong plane. There is no sin in flying, the bill will clearly explain, but if you win the flight and lose the battle, no one really care any more whether you fly or drop dead!

Aviation is only safe after you are elected. And not always, even then.

Which brings us to another A is for Abdicate, to resign and withdraw So the office we've graced is

ours no more. Abdication is the emergency hatch on the jet plane of state.

It is a door leading from every dignified office and can readily be found because it is draped in black. The howling of dogs is deaden-ed by the folds of crepe. It is

a concertina door. If you prove too slow in leaving, it opens wider to leave room for your companions to get out as well!

No question about it, John Dief. was on the wrong tack altogether!

The track team had a good day in Victoria on the first. Salt Spring was by far the smallest school there, but we set three track records. These were in the senior girls high jump (Coleen Piggot), the intermediate girls high jump (Francis Hill), the juntor boys shot put (Dair Lewis). In all we had six wins. Salt Spring took the junior boys triple jump with Ken Kyler. senior girls high jump with Coleen Piggot, junior girls 60 yd. dash with G. Rozzano, the inter-mediate high jump with Francis Hill, the senior boys shot put with Par Slingsby. After this we had two seconds and six thirds, bringing us to a position of 6th out of eight competing schools. Congratulations to the track

A warm welcome to Mr. and Mrs. Irving Sinclair of San Fran-cisco who have taken up residence for the summer at their cottage on Sturdies Bay.

We are sorry to report Mrs. Bernie Stallybrass recently suffend a mild stroke and has been conned to her home under doctor's care.

Also sorry to report Mrs. Bill Holosoff was admitted to Burnaby General Hospital where she underwent surgery on Monday.
Miss Jean Lockwood and Mr.

and Mrs. Harry Richardson spent last week in Banff and touring the Rocky Mountain area.

This is a busy week for Miss Jane Bambrick, whose marriage to Tom Williams, of Sidney, takes place in St. Margaret's on Saturday afternoon. On Wednesday she was guest of honour at a shower at the home of Mr. and Mrs. S. Riddell and the following day Mrs. David Bellhouse entertained her and a large number of friends at afternoon tea.

The Galiano Club committee started its annual clean up prog-ram around the community hall on Tuesday this week. A party of volunteers have undertaken to paint the interior of the hall and flowering plants have been set in the new cedar boxes flanking the front steps.

There was a splendid turnout of residents at the hall last Saturday night when Mr. P.G James, district agriculturist lectured on gardening. The evening concluded with the showing of coloured slides of plant diseases and their treatment. The evening was sponsor-

ed by the Galiano Club.
Over a hundred Masons from Vancouver came to the island last Saturday for their annual tournament at the Galiano Golf and Country Club. They were hosted by Club management Mr. and Mrs. Robert Aston and local members of the Masonic Lodge. Rear-Admiral Jeff Brock.

Conservative candidate for this riding was entertained at a coffee party last Friday at the home of Miss J. Lockwood. A-bout 25 islanders were invited to meet him and he gave an informal talk on the Conservative platform in the forthcoming election. He was accompanied by Lieut. Col. Des Crofton of Gan-

The Wardens of the Church of St. Margaret of Scotland have called a general meeting of the whole congregation and all other interested parties for Thur-sday evening June 13. They will report on the meeting the Church committee had with the Archbishop in Victoria on May 23, and the future of the Island urch will be discussed. On June 30 a number of Galiano children will be baptized in the Church at a special

service being arranged by the committee and Rev. H. Dun-

Three ships from C.F.B. Esquimalt stopped at Galiano last week for one night of their training cruise. They were Y. M.T. 10, Y.F.P. 319, Y.F.P. 312, under the command of Lt.-Commander Geoff Hilliard. Aboard were 25 Royal Roads Cadets of the Auxiliary Train-ing Squadron who have just completed their Cadet training and go now to Kingston, Ontario, for further training. They anchored in Montague Harbour.

Mr. and Mrs. Walter Elder, and three children, of Port Moody, also Miss D. Odberg and Ben Odberg, of Sidney, were recent guests of Ole and Ivor Sater in the Valley, Mr. and Mrs. E. Sater, of New Westminster, recently visited their family, son Ken, Ivor and Ole, they stayed at Mr. and Mrs. Ken Sater's on Manzanita

During the past week, two small fires brought out the Volunteer Fire Department, they were a chimney fire at the nome of Mrs. G. Bayley, on May 25, and a slash fire that got a little out of hand on the big B. C. Hydro right-of-way near Cooks Cove. About 20 vol unteers turned up in a hurry, and it was quickly contained, with a 24-hour watch for sever-al days carried out by the work-

ing men.

More than 60 people came out to Galiano Hall last week to see and hear P.J. James, of Salt Spring Island, Gulf Islands Agriculturalist, when he gave a garden talk, illustrated with slides. For more than two hours he kept the audience at full attention, with his interesting information on garden problems in this area. Mrs. James accompanied him, and assisted him with his slides. Coffee and delicious refreshments were served by Mrs. Hank Knudson and Tom Carolan.

It's either a feast or famine so there is not much news this week. Of course we had the Outer Islands big Sports day.

When the Hindmarch's have guests they have guests, in fact, thirty of them from Alexandra House in Vancouver. This, plus

their usual house guests.

At Lyall Harbour the Jim Woods family: Dave Bruce has been up all week putting a new addition to his cottage. Johnny Lihou has spent most of the week end fixin' his truck. See the Cronkite family have a new boat.

As Barbecue time is rolling around most of the able bodied Islanders are over working at Saturna Beach this Sunday and we will all be over every weekend from now on come on out and give us a hand. Everyone is more than welcome.

Following is an account of Sports day written by merry Mary Toynbee. Thanks, Mary!

SPORTS DAY

Saturna School again won the Outer Islands' Sports Cup after a very close and suspensefilled competition. Eighty-two pupils from the Mayne, Galianc Pender and Saturna Schools, with their teachers, parents and friends, gathered on Friday at Saturna for an exciting day of 'strenuous activity. There were straight races, broad jumping, high jumping and novelty races

with such things as sacks and potatoes. Pender took an early lead, but excitement rose as Saturna pulled into a tie for first place, with Galiano close behind. A cheer went up for Pender, as Kim Toews narrowly snatched the last high jump away from Barry Carpentier of Saturna, but then the fleetfooted Saturna-ites carried off the relay race, giving them the final edge - and the Silver Cup. for the second year running. Five of the contestants tied for the best individual scores, each winning first place in their age group for every event they entered, but a standing broad jump tie-breaker gave both of the trophies for Best Athlete to Pender Island: to Eileen Grimmer, age nine, and Dennis Moore, age twelve. The near runners-up were Christopher Barner of Galiano, and Diane Davidson and Betsy Elliott of Saturna .

The annual Spelling Bee, with Taimi Hindmarch in charge, was held on the Mayne Queen, as she carried the crowds to Saturna. First prizes in their respective grades went to: Jeffrey Giesbrecht, Heather Toews, and Debbic Daykin of Pender; Heather Martin and Shelley Martin of Mayne; and Dale Lawson, Debbie McDonald of Saturna.

A Pre-schoolers' Race brought ribbons to Gale Martin of Mayne and Brock Armstrong of Pender, and candy bars to all, while offering a preview of the silver

cups to be won on these islands at some future date.

To give the constestants and their fans strength and courage throughout the afternoon, the ladies of Saturna provided abundant nourishment: Shirley Money and her crew plying the children with hot dogs and ice cream, while Irene Lawson and her team spread out sandwiches, cakes and cookies for the grown-ups.

Donna Begon and her scorekeepers kept careful tally of all the events (the books are open to inspection by any Doubting Thomases!), while every other available body was pressed into service either transporting to the ferry or officiating on the field, under the competent direction of Ann Bavis and Marie McMahon. It was certainly an all-out Community Day, and regardless of who won, it was a fine occasion for the people of the outer islands to get together. and have a good time.

'We permit certain corporation s to foul up the earth and the air and the sea because it is necessary to put up with these things in order to develop our resources.

If such pollution were prohibited the people concerned would soon find means of doing away with it, he averred.

The governments are passing the buck in the field of pollution control, Colin Cameron told a New Democratic Party election meeting last week.

Salt Spring Island's pollution problems are the concern of the federal government he assured Mrs. Ada Ryan.

Mr. Cameron explained that he had addressed his enquiry to the minister of fisheries but that he had received

In the realm of industrial pollution he felt that most employees of the department are too fearful of the power of the great lumber companies. They are too timid to come out and make a statement, he observed. They feel that the power of the companies is such that if they say anything they would find themselves in some remote place on the west coast.

Pressure of public opinion is now reaching the point where the governments can no longer ignore it, assured the speaker.

"Keep it up!" he added.

The conditions are the trag-

edy of our society, continued Mr. Cameron.

An important announcement for all residents of British Columbia

BE SURE

you are covered under the British Columbia-Canada Medicare Plan before July 1,1968

Monday, July 1, 1968, will mark the beginning of a new era in medical coverage for all residents of British Columbia.

On that date, the British Columbia-Canada Medicare Plan will begin operating under a scheme by which, for the first time, the Federal Government will contribute a share of the costs of services performed for you by a physician or surgeon.

What you must do right away

If you are now a contributor to a non-profit medical insurance organization that is licensed to operate under the Plan, your name will be automatically registered as of July 1. But it is your responsibility to see that your name is or will be registered.

If you are not currently a member of such an organization, or are in doubt as to whether or not the medical services plan to which you contribute is a licensed one, you are obliged to make sure now.

It is to your advantage to have your name and the name of your dependents registered with a licensed medical plan without delay. An application may be made by you, your employer, or a person acting on your behalf. If you wish, you can apply immediately to join the British Columbia Medical Services Plan in Victoria.

If your medical care coverage is with an insurance company, it does not qualify. It will be necessary for you to apply to a licensed medical plan or have your employers apply for you.

A medical plan that is not licensed will not be in business in British Columbia after July 1st due to the Federal Government Medicare Act.

The new regulations do not interfere with any agreement

or arrangement between an employer and his employees regarding the proportion or percentage of the gross premium shared, nor with any arrangement for the collection and remittance of premiums by payroll deduction.

Under the British Columbia-Canada Medicare Plan, the range of medical services and the schedule of monthly rates will be the same for all qualifying medical plans. However, provision is made for other benefits provided by any such plan to continue as a separate sector of that plan's business.

Schedule of rates

- (a) Basic Premium Rate
- for a subscriber with no dependents \$ 5.00 per month for a subscriber with one dependent 10.00 per month for a subscriber with two or more dependents 12.50 per month
- (b) For a person who qualifies as an "eligible person" under the Medical Grant Act and who had no taxable income for the immediately previous taxation year
- for a subscriber with no dependents \$.50 per month for a subscriber with one dependent 1.00 per month for a subscriber with two or more dependents 1.25 per month
- (c) For a person who qualifies as an "eligible person" under the Medical Grant Act and whose taxable income for the immediately preceding taxation year did not exceed One Thousand Dollars (\$1,000.00)
- for a subscriber with no dependents \$ 2.50 per month for a subscriber with one dependent 5.00 per month for a subscriber with two or more dependents 6.25 per month

NOTE: for the purpose of administration, the Plan year for which premiums under (b) and (c) listed above are paid shall be July 1 to June 30 and changes in status from year to year shall be effected in accordance with that twelve month period.

Do not delay. Make sure your name is registered in a non-profit licensed plan.

If it is not, apply now.

Preliminary preparations for the 1968 strawberry season have now been completed, according to George Bevis, Manager, Victoria Canada Manpower Centre, and the special farm labour office is now open for the recruit-ment of pickers.

BERRY PICKERS

FOR NEXT WEEK

"This year", he said, "the Farm Labour Secion is located in the Humboldt St. entrance of the Belmont Building, where the office hours will be 8:15 a.m. to 11:30 a.m. and 12:00 noon to

4:45 p.m."

"The early picking of berries has already started", said Mr. Bevis, "but this is not expected to reach the commercial stage until approximately June 6th, by which time we expect to have a sizeable number of pickers in the field.
